Dr. Ambedkar Institute Of Management Studies & Research
St. Paul Junior College
Bhavans B.P. Vidya Mandir

TECHNICAL SKILLS

- ➢ C# (.NET)
- ➢ Microsoft Azure
- ➢ AI Fundamentals
- ➢ Python
- ➢ HTML
- ➢ CSS
- ➢ Java Script
- ➢ mySQL, Microsoft SQL
- ➢ PHP
- ➢ Tally Prime, Tally ERP 9
- ➢ Microsoft Excel

Tools : Visual Studio IDE, VS code, SQL Management Studio, Git, Postman, Jira,

Soft Skills : Leadership, Strategic thinking, Good Communication, People Management

CERTIFICATIONS

- ➢ Microsoft Certified: Azure AI Fundamentals (AI-900) – *Microsoft, 2025*

WORK EXPERIENCE

Eximius Software Solutions | Intern – Full Stack Developer

SEP 2025 – Present | On-site

- ➢ Completed 8-week Full Stack Development Training and Internship program.

- ➢ Built a Patient Record Management System using C#, .NET, and SQL Server, enabling CRUD operations and secure data handling.

- ➢ Developed multiple responsive web pages using HTML, CSS, JavaScript, and integrated REST APIs.

➢ Worked with Entity Framework for database interaction and Microsoft Azure for cloud deployment.

➢ Learned fundamentals of AI and its integration into web development workflows.

➢ Collaborated in an agile environment using Scrum and project management tools.

(Tech: C#, .NET, HTML, CSS, JavaScript, SQL, Azure, AI fundamentals)

TTEC India | Intern, Full Stack Application Developer
 May 2025 – July 2025 | On-site

Internship Projects (TTEC)

❖ LEP Canada Past Submissions Module

❖ Application Survey

❖ Exit Survey – Generic Link
 (Tech: HTML, CSS, JavaScript, .NET (C#), MySQL,)

➢ Developed and enhanced three key modules:

- LEP Canada Past Submissions – enabled employees to revisit onboarding submissions, improving transparency and personalized communication.

- Application Survey – designed a one-question-per-page survey system with conditional logic, ensuring clean and analyzable feedback data.

- Exit Survey – created a generic survey link system for supervisors, simplifying feedback collection while maintaining confidentiality.

➢ Worked across frontend (HTML, CSS, JavaScript) and backend (.NET with C# and MySQL) to deliver scalable features.

➢ Gained hands-on experience in UI/UX design, SQL queries, and cloud deployment using Google Cloud Platform (GCP).

➢ Collaborated with cross-functional teams, improving problem-solving, agile development, and communication skills.

AlphaXM | Jan 2021- Jan 2022

➢ Worked part time as a Content Creator, contributing to social media marketing efforts for AlphaXM
In this role , I was responsible for crafting compelling content across various platforms such as Instagram and Twitter. Developed and executed content calendars to ensure consistent and strategic posting , aligning with our marketing objectives.

PROJECTS

Patient Record Management System

➢ Developed a desktop-based application for managing patient details using C#, .NET Framework, and SQL Server.

➢ Implemented modules for viewing, adding, updating, and searching patient records with input validation.

➢ Designed a clean and user-friendly interface using Windows Forms.

Other Web Projects

➢ Created several responsive web pages using HTML, CSS, JavaScript, and connected them with backend APIs for dynamic data handling.

➢ Focused on clean design, proper layout structure, and functional UI/UX.

Python Projects
➢ Band Name Generator
➢ Tip Calculator
➢ Rock Paper Scissor
➢ Password Generator
➢ Hangman
➢ Love Calculator
➢ Number Guessing Game
